Linea Best Breeders

The Best Breeders line is the top of the FORZA10 maintenance range for breeders and perfectly embodies the FORZA10 nutritional philosophy, consisting of a few but fundamental principles:

- **Fishmeal from fish caught at sea and low-ash chicken meal:** FORZA10 uses only fishmeal from fish caught at sea or low-ash chicken meal as animal protein sources. They are characterised by a low ash content, indicating a low bone content, thus reducing the risk of transmitting oxytetracycline residue. Discover all of our scientific research on this residue at forza10.com/scientific-studies
- **Omega-3:** These fatty acids, which are plentiful in our product thanks to the inclusion of fish oil, are finely adjusted for each individual reference and contribute to maintaining optimal physical fitness.
- **Cutting edge scientific research:** FORZA10 has carried out more than 30 scientific research studies in collaboration with Universities, research centres and freelancers, publishing them in prestigious international scientific journals. In addition, by making them all freely available on its website, it has allowed everyone to gain access to them (discover all our research studies at forza10.com/scientific-studies).
- **Reduced number of selected ingredients:** All FORZA10 formulas use very few raw materials, but they are of the highest quality and are controlled on a regular basis (over 5 thousand controls per year) to guarantee an exceptional product.

MICRO CAPSULES SYSTEM

The Best Breeders line is also **enriched with botanical substances** such as Ginseng, Pineapple, Papaya, Pomegranate, Echinacea, Cranberry, Dandelion and Rosehip*, selected by **FORZA10** for their **specific properties, as acknowledged in the literature.**

Preserving the effectiveness of these botanical substances is the special technique of **microencapsulation**, as it allows the added natural ingredients to remain stable over time while ensuring their gradual absorption in the intestinal tract (**slow release**), delivering an effective and lasting action.

*forza10.com/scientific-studies

PROTEIN SOURCES

- **FISH CAUGHT AT SEA:** A source of protein with a very **high biological value and highly digestible**. It has a balanced intake of **Omega3** and **Omega6** polyunsaturated fatty acids, which contribute to maintaining optimum physical fitness and help prevent gaining weight. Fish is also a food source very rich in **vitamin B12, phosphorus and selenium**.

- **VENISON:** FORZA10 uses **exclusively pasture-raised New Zealand venison**. It is a wholesome meat, with high quality and bioavailable protein, while being low in fat.

- **LAMB:** Coming from the **pastures of New Zealand**, lamb is a protein source of excellent **biological value**, with a balanced presence of all the amino acids essential for body development, growth and maintenance. It is also a valuable **source of minerals (zinc, copper, selenium and iron)** and water-soluble (**B1, B2, B6, niacin and B12**) and **fat-soluble (E) vitamins**.

- **CHICKEN:** **FORZA10** uses only low-ash poultry meal from Italian farms so as to avoid the risk of contamination of meat meal with bone meal that may carry pharmacological residue. Chicken meat is well known for being **extremely palatable and digestible**.

- **PIG:** **FORZA10** uses this type of protein with a high biological value for individuals looking for highly palatable food and as an alternative to the more traditional maintenance diets. This protein is rich in B vitamins, iron, selenium and other essential minerals.

PUPPY JUNIOR WITH RICE AND FISH

Canine Formula
0109056

Puppy Junior All Breeds with Rice and Fish is a perfect food for puppies of all sizes. It stands out for its combination of fish caught at sea as a source of protein and Italian rice as a source of carbohydrates, ensuring matchless digestibility. Fish oil also naturally provides plenty of Omega 3, ensuring an optimal and balanced growth and skin and coat well-being.

COMPOSITION:

Rice 34%, fish meal 22%, rice flour, fats and oils (fish oil 2.5%), brewer's yeast, beet pulp, minerals, dehydrated yeast (Bio MOS), FOS, Yucca schidigera, products from the processing of plants (Ananas spp. 0.025%), products and by-products from processing fresh fruits and vegetables (Carica papaya 0.0151%). Additives: vitamins: vitamin A 26000 IU/kg, vitamin E/all-rac-alpha-tocopheryl acetate 400 mg/kg, choline chloride 1000 mg/kg. Oligoelements: zinc sulphate monohydrate 210 mg/kg, cupric chelate of glycine hydrate 60 mg/kg. Nutritional additives: DL-methionine 800 mg/kg. Sensory additives: botanically defined natural products: Punica granatum 150 mg/kg, Panax ginseng 50 mg/kg, Rosmarinus officinalis 15.2 mg/kg. Analytical constituents: moisture 8%, crude protein 26%, crude oils and fats 14%, crude fibre 2.5%, crude ash 7.5%, calcium 1.2%, phosphorus 1.1%, Omega3 1.1%, Omega6 1.6%. ME: 3570 kcal/kg - 14.9 MJ/kg.

PUPPY JUNIOR WITH FISH

Canine Formula
0109023

Puppy Junior Small Medium with Fish is a food suitable for small and medium sized puppies. The formulation and shape of the kibbles are specially designed to meet the needs of smaller sized dog breeds. The fish caught at sea also makes the food highly palatable while the Omega3 fatty acids and glucosamine ensure appropriate cartilage and muscle development.

COMPOSITION:

Fishmeal 28%, corn, rice, rice flour, chicken fat, brewer's yeast, fish oil, beet pulp, minerals, dehydrated yeast (Bio MOS), FOS, Yucca schidigera, products from herbs (Rosa canina 0.1%), glucosamine 0.047%, products from vegetable processing (Pineapple/Ananas spp. 0.025%). Additives – Vitamins: Vitamin A 19500 IU/kg, Vitamin E / all-rac-alpha-tocopherol 330 mg/kg, choline chloride 700 mg/kg, Trace elements: zinc sulphate monohydrate 164 mg/kg, copper glycine chelate hydrate 46 mg/kg, Nutritional additives: DL-methionine 600 mg/kg. Flavour and aroma enhancers: Natural products (botanical names): Panax ginseng 50 mg/kg, Rosmarinus officinalis 16.3 mg/kg. Analytical constituents: Moisture 8%, crude protein 29%, crude oils and fats 15%, crude fibre 2.2%, crude ash 6.9%, calcium 1.3%, phosphorus 1.1%, Omega-3 1.1%, Omega-6 4.1%. PUPPY JUNIOR FISH WITH CHICKEN

Canine Formula
0109032

Puppy Junior All Breeds Fish with low-ash Chicken is a food suitable for puppies of all sizes. The use of chicken combined with fish caught at sea provides a valid alternative taste to the references with a single source of protein, without detracting from quality. In addition to ensuring an antioxidant effect, Omega-3 – delivered through fish oil – plays a key role for the well-being of cognitive functions, skin and coat.

COMPOSITION:

Maize, fish meal 16%, processed chicken protein 12%, chicken fat, fats and oils, fish oil, beet pulp, brewer's yeast, minerals, dehydrated yeast (Bio MOS), FOS, Yucca schidigera, glucosamine 0.047%, products and by-products from processing fresh fruits and vegetables (Carica papaya 0.025%). Additives: vitamins: vitamin A 19500 IU/kg, vitamin D3 1100 IU/kg, vitamin E/ all-rac-alpha-tocopheryl acetate 330 mg/kg, choline chloride 700 mg/kg. Oligoelements: zinc sulphate monohydrate 164 mg/kg, copper amino acid chelate 46 mg/kg. Nutritional additives: taurine 1500 mg/kg, L-carnitine 300 mg/kg, DL-methionine 600 mg/kg. Sensory additives: botanically defined natural products: Echinacea purpurea 50 mg/kg, Rosmarinus officinalis 22.3 mg/kg. Analytical constituents: moisture 9%, crude protein 32%, crude oils and fats 18%, crude fibre 2.5%, crude ash 7.5%, calcium 1.3%, phosphorus 1.1%, Omega3 0.8%, Omega6 3.6%. ADULT ALL BREEDS WITH RICE AND FISH

Canine Formula
0109121

Adult All Breeds with Rice and Fish is a perfect food for adult dogs of all sizes. It stands out for its combination of fish caught at sea as a source of protein and Italian rice as a source of carbohydrates, ensuring matchless digestibility. Fish oil naturally provides Omega-3, ensuring appropriate maintenance of physical fitness and the well-being of the skin, coat and cognitive functions. The precious botanical substances (Ginseng, Pineapple, Papaya and Pomegranate) preserve all their beneficial properties thanks to microencapsulation, which ensures their gradual release along the entire intestinal tract (slow-release).

COMPOSITION:

Rice 34%, fishmeal 22%, rice flour, oils and fats (of which fish oil 2.5%), brewer's yeast, beet pulp, minerals, dehydrated yeast (Bio MOS), FOS, Yucca schidigera, products from vegetables (Pineapple/Ananas spp. 0.025%), products and by-products obtained from fresh fruit and vegetable processing (Carica papaya 0.0151%). Additives – Vitamins: Vitamin A 26000 IU/kg, Vitamin E / all-rac-alpha-tocopherol 400 mg/kg, choline chloride 1000 mg/kg. Trace elements: zinc sulphate monohydrate 210 mg/kg, copper glycine chelate hydrate 60 mg/kg. Nutritional additives: DL-methionine 800 mg/kg. Flavour and aroma enhancers: Natural products (botanical names): Punica granatum 150 mg/kg, Panax ginseng 50 mg/kg, Rosmarinus officinalis 15.2 mg/kg. Analytical constituents: Moisture 8%, crude protein 25%, crude oils and fats 13%, crude fibre 2.5%, crude ash 8%, Omega-3 1.1%, Omega-6 1.6%. ME: 3499 kcal/kg - 14.7 MJ/kg.

ADULT ALL BREEDS WITH VENISON AND POTATOES

Canine Formula
0109031

Adult All Breeds with Venison and Potatoes is a complete and balanced food for adult dogs of all sizes. Pasture-raised New Zealand venison is an excellent alternative animal protein source to fish and chicken. The reference proves useful in the reduction of food intolerances, while fish oil ensures the presence of Omega-3 fatty acids, which are essential for the welfare of cognitive functions, skin and coat.

COMPOSITION:

Maize, processed lamb protein, processed venison protein (6.1%), potatoes (4.1%), corn oil, beet pulp, fish oil, minerals, dehydrated yeast (Bio MOS), FOS, Yucca schidigera, products from herb processing (*Rosa canina* 0.1%), products from vegetable processing (Pineapple/*Ananas* spp. 0.025%). Additives – Vitamins: Vitamin A 17500 IU/kg, Vitamin D3 1000 IU/kg, Vitamin E/all-rac-alpha-tocopheryl acetate 290 mg/kg, choline chloride 700 mg/kg. Trace elements: zinc sulphate monohydrate 135 mg/kg, copper glycine chelate hydrate 39 mg/kg. Nutritional additives: DL-methionine 500 mg/kg. Flavour and aroma enhancers: Natural products (botanical names): *Panax ginseng* 50 mg/kg, *Rosmarinus officinalis* 14.3 mg/kg. Analytical constituents – Moisture 9%, crude protein 26%, crude oils and fats 15%, crude fibre 2.5%, crude ash 8%, calcium 1.2%, phosphorus 1%, Omega-3 0.8%, Omega-6 4.8%.

BOTANICALS:

Ananas comosus
Rosa canina
Panax ginseng

ADULT LARGE WITH CHICKEN AND FISH

Canine Formula
0109041

Adult Large with Chicken and Fish is a food suitable for adult large and giant dogs. The use of chicken combined with fish caught at sea provides a valid alternative taste to the references with a single source of protein, without detracting from quality. The protein and fat content available in the reference are specifically designed to promote the development of lean mass at the expense of fat mass.

COMPOSITION:

Maize, fish meal 14.7%, processed chicken protein 14.5%, rice flour, chicken fat, fish oil, minerals, dehydrated yeast (Bio MOS), FOS, Yucca schidigera, products and by-products from processing fresh fruits and vegetables (Carica papaya 0.025%). Additives: vitamins: vitamin A 17500 IU/kg, vitamin D3 1000 IU/kg, vitamin E/all-rac-alpha-tocopheryl acetate 290 mg/kg, choline chloride 700 mg/kg. Oligoelements: zinc sulphate monohydrate 137 mg/kg, copper amino acid chelate 39 mg/kg. Nutritional additives: taurine 1500 mg/kg, L-carnitine 300 mg/kg, DL-methionine 500 mg/kg. Sensory additives: botanically defined natural products: Echinacea purpurea 50 mg/kg, Rosmarinus officinalis 17.1 mg/kg. Analytical constituents: moisture 8%, crude protein 27%, crude oils and fats 17%, crude fibre 2.5%, crude ash 8%, calcium 1.3%, phosphorus 1.1%, Omega3 0.6%, Omega6 3.6%. ME: 3703 kcal/kg - 15.5 MJ/kg.

ADULT SMALL/MEDIUM WITH CHICKEN AND FISH

Canine Formula
0109040

Adult Small-Medium with Chicken and Fish is a food suitable for adult small and medium dogs. The use of low-ash chicken combined with fish caught at sea provides a valid alternative taste to the references with a single source of protein, without detracting from quality. In addition to ensuring an antioxidant effect, Omega-3 – delivered through fish oil – plays a key role for the well-being of cognitive functions, skin and coat.

COMPOSITION:

Maize, fish meal 14.7%, processed chicken protein 14.5%, rice flour, chicken fat, fish oil, minerals, dehydrated yeast (Bio MOS), FOS, Yucca schidigera, products and by-products from processing fresh fruits and vegetables (Carica papaya 0.025%). Additives: vitamins: vitamin A 17500 IU/kg, vitamin D3 1000 IU/kg, vitamin E/all-rac-alpha-tocopheryl acetate 290 mg/kg, choline chloride 700 mg/kg. Oligoelements: zinc sulphate monohydrate 137 mg/kg, copper amino acid chelate 39 mg/kg. Nutritional additives: taurine 1500 mg/kg, L-carnitine 300 mg/kg, DL-methionine 500 mg/kg. Sensory additives: botanically defined natural products: Echinacea purpurea 50 mg/kg, Rosmarinus officinalis 17.1 mg/kg. Analytical constituents: moisture 8%, crude protein 26%, crude oils and fats 16%, crude fibre 2.5%, crude ash 8%, calcium 1.3%, phosphorus 1.1%, Omega3 0.6%, Omega6 3.6%. ALL BREEDS ADULT WITH PORK

Canine Formula
0109062

All Breeds Adult with Pork is the reference for complete and balanced maintenance for adult dogs of all sizes in good health. The pork used is an excellent source of protein with a high biological value. It is rich in B vitamins, iron, selenium and other essential minerals that enhance its high nutritional profile. This reference is an excellent alternative to the more classic maintenance diets. It contains pork as the only animal protein source. It is a highly palatable food suitable for all sizes.

COMPOSITION:

Processed pork protein 27%, maize, white sorghum, rice middlings, chicken fat, animal product, fish oil, minerals, mannan-oligosaccharides (MOS), FOS, Yucca schidigera. Additives (per kg): Nutritional additives: vitamin A 17500 IU, vitamin D3 1000 IU, vitamin E/all-rac-alpha-tocopheryl acetate 290 mg, choline chloride 1400 mg, zinc sulphate, monohydrate 137 mg (Zn 50 mg), copper(II) chelate of glycine hydrate (solid) 39 mg (Cu 10 mg), DL-methionine 500 mg. Technological additives: clinoptilolite of sedimentary origin 2000 mg, antioxidants, preservatives, extract rich in natural tocopherols 11.8 mg. Sensory additives: botanically defined natural products: Rosmarinus officinalis 0.24 mg. Analytical constituents: moisture 8%, crude protein 26%, crude fats 14%, crude fibres 2.7%, crude ash 7.1%, Omega3 0.65%, Omega6 2.6%. ME 3920 kcal/kg - 16.4 MJ/kg.

PUPPY CONDRO

Canine Formula
0109037

Puppy Condro Active is a complete and balanced food for puppies of all sizes. It is based on specific research substantiating its effectiveness (www.forza10.com/research-dysplasia-puppy-condro/), and is specially formulated to promote harmonious development of the muscular-skeletal system in all puppies. It is also most suitable for dogs that are prone to the onset of osteoarticular disorders or show growth imbalances. This reference contains fish as the only protein source of animal origin and rice as a source of glucose, being highly digestible and palatable raw materials. The presence of Omega-3 and their optimal ratio with Omega-6 promotes a harmonious growth curve, as well as determining a chondroprotective and antioxidant action (aided by vegetable glucosamine and chondroitin sulfate) on the musculoskeletal system. The food is also suitable for the reduction of intolerances to ingredients and nutrients.

NUTRITIONAL PURPOSE:

- Support joint metabolism in case of osteoarthritis
- Reduce ingredient and nutrient intolerances

COMPOSITION:

Rice, fishmeal 25%, oils and fats (of which fish oil 2.5%), brewer's yeast, beet pulp, minerals, dehydrated yeast (Bio MOS), FOS, Yucca schidigera. (AFS tablets – 7% of the food) – Hydrolysed fish protein, hydrolysed vegetable protein, minerals, Chondroitin sulphate (from shark cartilage) 0.0811%, plant-derived glucosamine 0.0810%, shellfish meal 0.0635%, chitosamine 0.0400%. Additives – Vitamins: vitamin A 31500 IU/kg, vitamin E/rac-alpha-tocopheryl acetate 540 mg/kg, vitamin C 250 mg/kg, choline chloride 1000 mg/kg. Trace elements: zinc sulphate monohydrate 274 mg/kg, copper glycine chelate hydrate 78 mg/kg. Nutritional additives: DL-methionine 1000 mg/kg. Flavour and aroma enhancers: Natural products (botanical names): Boswellia serrata 250 mg/kg, Harpagophytum procumbens 243 mg/kg, Rosmarinus officinalis 2281 mg/kg. Analytical constituents – Moisture 8%, crude protein 32.5%, crude oils and fats 16.0%, crude fibre 2.5%, crude ash 6.3%, calcium 1.2%, phosphorus 1.1%, Omega-3 3.3%, Omega-6 1.0%.

STARTER PUPPY

Canine Formula
0109010

Starter Puppy with Colostrum is the Best Breeders reference specifically designed for puppies in the weaning phase or for orphaned puppies. It has been developed using highly digestible clean proteins and enriching the recipe with colostrum, to provide puppies with a supply of substances that are very important for neonatal development. Its formula based on sea-caught fish and organic chicken combines nutrition and palatability. Its special compactness, when moistened with water, makes it possible to create a semi-moist food that is easily assimilated.

COMPOSITION:

Processed chicken protein* 15%, rice, rice flour, maize, fish meal 10%, potatoes, chicken fat, fish oil, seaweed (*Ascophyllum nodosum*)* 4%, beet pulp, brewer's yeast, colostrum 0.5%, minerals, dehydrated yeast (Bio MOS) 0.2%, FOS 0.08%, *Yucca schidigera*, products from herbs (*Rosa canina* 0.027%). *organic. Additives – Vitamins: vitamin A 29500 IU/kg, vitamin D3 1600 IU/kg, vitamin E/rac-alpha-tocopheryl acetate 500 mg/kg, vitamin C 200 mg/kg, choline chloride 1000 mg/kg. Trace elements: zinc sulphate monohydrate 247 mg/kg, copper glycine chelate hydrate 72 mg/kg. Nutritional additives: DL-methionine 900 mg/kg. Flavour and aroma enhancers: Natural products (botanical names): *Rosmarinus officinalis* 25.8 mg/kg. Analytical constituents – Moisture 9%, crude protein 30%, crude oils and fats 18%, crude fibre 1.8%, crude ash 6%, calcium 1.4%, phosphorus 1.1%, Omega-3 0.9%, Omega-6 2.7%. REPRODUCTION MALE

Canine Formula
0109034

Reproduction Male is a complete food for male dogs of all sizes, recommended in the period of reproduction, especially in the month before mating (study being published). The inclusion of a specific pool of botanical substances such as *Tribulus terrestris*, *Lepidium meyenii*, Beta-carotene and Vitamin E promote the improvement of the reproductive sphere. Best results are obtained by administering **Reproduction Male** for about a month before the expected mounting period. Its effectiveness is substantiated by a specific research carried out in collaboration with the University of Turin and a recent clinical trial carried out with three veterinary colleagues specialising in reproductive disorders. These endeavours have demonstrated the improvement of semen quality and reproductive performance.

COMPOSITION:

Rice, fishmeal (anchovy) 21%, oils and fats (of which fish oil 4%), beet pulp, seaweed (*Ascophyllum nodosum*), minerals, dehydrated yeast (Bio MOS), FOS, *Yucca schidigera*. (AFS tablet – 7% of food): fish protein hydrolysate 3%, vegetable protein hydrolysate, minerals, *tribulus terrestris* 0.052% Additives – Vitamins: vitamin A 17000 IU/kg, vitamin E/*rac*-alpha-tocopheryl acetate 250 mg/kg, vitamin C 250 mg/kg, folic acid 1.7 mg/kg, choline chloride 1000 mg/kg. Trace elements: zinc sulphate monohydrate 137 mg/kg, copper glycine chelate hydrate 39 mg/kg. Nutritional additives: DL-Methionine 500 mg/kg, L-Carnitine 420 mg/kg. Organoleptic additives – Botanically defined natural products: Carotenoids and xanthophylls (alpha-carotene, beta-carotene, lutein, lycopene, zeaxanthin), *Lepidium meyenii* 865 mg/kg, *Rosmarinus officinalis* 18.1 mg/kg. Analytical constituents – Moisture 8%, crude protein 26%, crude oils and fats 12.5%, crude fibre 2.6%, crude ash 7.3%, calcium 1.3%, phosphorus 1.1%, Omega-3 1%, Omega-6 3.9%. ME: 3498 kcal/kg - 14.6 MJ/kg.

REPRODUCTION FEMALE

Canine Formula
0109120

Reproduction Female is a complete food for bitches recommended during the breeding season. The inclusion of a specific pool of natural substances such as *Lepidium meyenii*, Beta-carotene, Vitamin E, Folic Acid and L-carnitine, promote the improvement of the reproductive sphere. Best results are obtained by administering **Reproduction Female** for about a month before heat, continuing until mid-pregnancy if mating is successful. Since its formulation is based only on one animal protein source (fish caught at sea), it is suitable for reducing ingredient and nutrient intolerances.

COMPOSITION:

Rice, fishmeal 21%, oils and fats (of which fish oil 4%), beet pulp, algae (*Ascophyllum nodosum*), minerals, dehydrated yeast (Bio MOS), FOS, *Yucca schidigera*. - (AFS tablet – 7% of food): fish protein hydrolysates 3%, vegetable protein hydrolysates, minerals. Additives – Vitamins: Vitamin A 17000 IU/kg, vitamin E/rac-alpha-tocopheryl acetate 250 mg/kg, vitamin C 250 mg/kg, folic acid 1.7 mg/kg, beta-carotene 20 mg/kg, choline chloride 1000 mg/kg. Trace elements – Zinc sulphate monohydrate 135 mg/kg, copper amino acid chelate hydrate 39 mg/kg. Nutritional additives: DL-Methionine 500 mg/kg, L-Carnitine 350 mg/kg. Flavour and aroma enhancers: Natural products (botanical names): *Lepidium meyenii* 865 mg/kg, *Rosmarinus officinalis* 18.1 mg/kg. Analytical constituents – Moisture 8%, crude protein 26%, crude oils and fats 12.5%, crude fibre 2.6%, crude ash 7.3%, calcium 1.3%, phosphorus 1.1%, Omega-3 1%, Omega-6 3.9%. Linea Basic

The Forza10 **Basic Breeders** line is a complete and balanced maintenance line, recommended for healthy adults of all breeds and sizes and formulated to fully satisfy their nutritional needs.

Basic Breeders meets your dog's dietary needs with a quality, palatable and reasonably priced food. Like all Forza10 lines, Basic Breeders is based on a few but fundamental principles:

- **Fishmeal from fish caught at sea and low-ash chicken meal:** FORZA10 uses only fishmeal from fish caught at sea or low-ash chicken meal as animal protein sources. They are characterised by a low ash content, indicating a low bone content, thus reducing the risk of transmitting oxytetracycline residue.
- **Omega-3:** Balanced intake of Omega-3 thanks to the inclusion of fish oil.
- **Reduced number of selected ingredients:** All FORZA10 formulas use very few raw materials, which are of the highest quality and are controlled on a regular basis (over 5 thousand controls per year).

ADULT ALL BREEDS WITH CHICKEN

Canine Formula
0109014

Adult All breeds with Chicken is the complete and balanced maintenance reference ideal for dogs of all sizes, formulated to remain in perfect physical shape. Low-ash chicken is an excellent source of protein, particularly digestible, making the product palatable and tasty.

COMPOSITION:

Cereals, meat and meat by-products (chicken 26%), derivatives of vegetable origin (beet pulp 4%), fats and oils, minerals. Additives: vitamins: vitamin A 11000 IU/kg, vitamin D3 1100 IU/kg, vitamin E/all-rac-alpha-tocopheryl acetate 60 mg/kg, choline chloride 700 mg/kg. Oligoelements: copper sulfate pentahydrate 145 mg/kg. Sensory additives: botanically defined natural products: Rosmarinus officinalis 5.7 mg/kg. Analytical constituents: moisture 8%, crude protein 25.5%, crude oils and fats 12%, crude fibre 2.8%, crude ash 8%, calcium 1.2%, phosphorus 1.1%, Omega3 0.4%, Omega6 3%. ME: 3442 kcal/kg - 14.4 MJ/kg.
